My Portfolio

ABOUT ME

Final-year E-Commerce student at the University of Economics and Law (UEL). Through academic projects, I have gained hands-on experience in product development, business analysis, and cross-functional collaboration. I led two end-to-end projects, from gathering requirements and defining product scope to coordinating development and delivery. I also conducted user research, analyzed user behavior, and translated insights into product improvements. Therefore, I am eager to build my career in Product Management through ShopeeFood's Associate Product Management Program.

SKILLS

Technical Skills

- Microsoft Office:** Word, Excel, PowerPoint
- Databases:** SQL (SQLite), Microsoft Azure
- Design & Prototyping:** Figma, Canva, Draw.io
- Data & Reporting:** Google Sheets
- Programming & Development:** Angular, Firebase/Firestore, Android/Java, Python, MongoDB

Soft skills

- Ownership & Leadership:** Leading teams of 5+ as team leader, from requirements through delivery
- Cross-functional Collaboration:** Working with developers, designers, and business teams to build and ship features
- Communication:** Business-level English (IELTS 6.0), comfortable presenting and writing reports
- Adaptability:** Comfortable coordinating across cultures and international teams

Project Experience

Improving E-Payment Solutions for Medical Services at Bach Mai Hospital

Team leader

Information Systems Analysis & Design subject

- Analyzed hospital payment workflows and led the design of a system to improve e-payment for medical services and prescriptions.
- Developed system models including Use Case, DFD, ERD, BPMN, and system architecture.
- Proposed a mobile-friendly patient interface and admin portal, with integration into HIS and notification services.

"Sac" - E-Commerce Website for Vietnamese Traditional Clothing

Team leader

Advanced Business Development subject

- Designed and developed an e-commerce website using Angular, leading the team from concept to launch.
- Built core features including product display, user interaction, and online shopping functions.

TiredCity - E-Commerce Mobile App for Vietnamese Traditional Apparel

Market researcher

Mobile Commerce Development subject

- Designed and developed an e-commerce website using Angular, leading the team from concept to launch.
- Built core features including product display, user interaction, and online shopping functions.

WORK EXPERIENCE

Collaborator, Dept. of Cooperation and Development, UEL

August 2024 - Present

- Led several business-partnership programs and academic seminars from start to finish, working with faculty, outside partners, and other students to keep everyone moving in the same direction.
- Took care of the admin side too - approvals, paperwork, documentation
- Put together the slide decks and brochures we used to introduce the university to partners.

Event Program Leader, DIVE Training Program, UEL

September 2024 and January 2025

- Directed the coordination of 6-10 collaborators, delegating tasks and managing project timelines from planning through execution.
- Oversaw pre- and post-event documentation and provided direct support to specialists and stakeholders throughout

Event Collaborator, ICEF Vietnam

June 2024

ICEF Vietnam

- Supported execution of the ICEF South East Asia program, guiding international participants and preparing program documentation.
